

# FITODEPIL®

UPUTSTVO  
ZA UPOTREBU

**KREMA  
ZA DEPILACIJU**

FITOGAL

INSTRUCTIONS  
FOR USE

**DEPILATORY  
CREAM**

**SRB/MNE/BiH** Krema za depilaciju **FITODEPIL** temeljno i potpuno bezbolno odstranjuje neželjene dlačice sa tela i lica. Posebno optimizovana formula omogućava da proces depilacije, u zavisnosti od kvaliteta i gustine dlake, traje 5-10 minuta. Nakon upotrebe, koža je glatka i nežna na dodir.

## Uputstvo za upotrebu:

Priloženom lopaticom nanesite kremu za depilaciju u sloju dovoljno debelom (2-3mm) da potpuno prekrije dlačice koje želite ukloniti. Ostavite da krema deluje 5-10 minuta. Potrebno vreme zavisi od kvaliteta i dužine dlake. Depilacija je završena kada se dlačice mogu lako ukloniti lopaticom. Nakon uklanjanja kreme i dlaka lopaticom, isperite kožu mlakom vodom bez upotrebe sapuna i osušite peškirom.

## Mere predostrožnosti:

Pridržavati se uputstva za upotrebu. Ukoliko ovu vrstu proizvoda koristite prvi put potrebno je proveriti reakciju kože nanošenjem male količine kreme na unutrašnjost podlaktice. Posle 10 minuta isprati vodom. Ako na tom delu kože posle 24 časa nema promena (crvenilo, oteklina, svrab), krema se sme upotrebljavati.

Ne nanositi na oštećenu i iritiranu kožu. U slučaju gutanja zatražiti medicinsku pomoć.

Paziti da krema ne dodje u dodir sa očima.

Čuvati van domašaja dece.

**EN** Depil Cream **FITODEPIL** is made to painlessly, at the root, take off even the most stubborn body hair without any nicks, cuts or irritation. It leaves your skin silky smooth, sleek and sculptured. High quality formula ensures effective hair removal in 5-10 minutes, depending on the thickness of the hair. It can be used anywhere on the body and face to remove unwanted hair.

## Instructions for use:

With the supplied spatula evenly spread the cream over the entire area where the unwanted hair is to be removed to form the layer thick enough (2-3mm) so that the hair is well covered. Leave the cream to work approximately 5-10 minutes. The length of time depends on hair thickness and the quantity of hair to be removed. The required time has been reached when the hair can easily be removed with the spatula. With the aid of the spatula remove all the cream and hair. Finally, thoroughly rinse the skin with lukewarm water (do not use

the soap) and dry with the towel.

## Precautions:

Please follow the instructions for use. Before using the cream for the first time test your skin for sensitivity. Apply a small amount of the cream onto the skin on the inner side of your elbow. After ten minutes rinse with water. If after 24 hours there is no change in the skin (red, inflamed, itching) the cream may be used.

Do not use the cream on inflamed, infected or otherwise irritated skin.

If swallowed seek medical attention.

Keep away from eyes.

Keep out of the reach of children.
